DETAILED ACTION

Priority

Acknowledgment is made of applicant's claim for foreign priority based on an application filed in France on June 28, 2002. It is noted, however, that applicant has not filed a certified copy of the 02/08114 application as required by 35 U.S.C. 119(b).

Applicant states in the remarks filed March 5, 2007 that a certified copy was submitted, however, the examiner was unable to find any record of the priority document.

Allowable Subject Matter

Claims 1-16 are allowed.

The following is an examiner's statement of reasons for allowance: The present invention is directed to a method and apparatus for marking video sequences. Each independent claim identifies the uniquely distinct features of "marking, for the pictures of the second category coded by motion vectors, only the macroblocks for which the motion vectors are greater than a predetermined threshold". The closest prior art, Vynne et al (5,960,081), discloses a method for inserting watermarks into a video sequence fails to anticipate or render the above underlined limitation obvious. Likewise, the prior art Masaki (5,715,005), which discloses a method for motion vector coding, fails to anticipate or render the above underlined limitation obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

This application is in condition for allowance except for the following formal matters:

Applicant has not submitted a certified copy of the priority application in accordance with 35 USC 119(b). See also 37 CFR 1.55 (a)(2).

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
